DATE MAILED: 03/12/2003

Notice of Fee Increase on January 1, 2003

If a reply to a "Notice of Allowance and Fee(s) Due" is filed in the Office on or after January 1, 2003, then the amount due will be higher than that set forth in the "Notice of Allowance and Fee(s) Due" since there will be an increase in fees effective on January 1, 2003. See Revision of Patent and Trademark Fees for Fiscal Year 2003; Final Rule, 67 Fed. Reg. 70847, 70849 (November 27, 2002).

The current fee schedule is accessible from: <http://www.uspto.gov/main/howtofees.htm>.

If the issue fee paid is the amount shown on the "Notice of Allowance and Fee(s) Due," but not the correct amount in view of the fee increase, a "Notice to Pay Balance of Issue Fee" will be mailed to applicant. In order to avoid processing delays associated with mailing of a "Notice to Pay Balance of Issue Fee," if the response to the Notice of Allowance and Fee(s) due form is to be filed on or after January 1, 2003 (or mailed with a certificate of mailing on or after January 1, 2003), the issue fee paid should be the fee that is required at the time the fee is paid. If the issue fee was previously paid, and the response to the "Notice of Allowance and Fee(s) Due" includes a request to apply a previously-paid issue fee to the issue fee now due, then the difference between the issue fee amount at the time the response is filed and the previously paid issue fee should be paid. See Manual of Patent Examining Procedure, Section 1308.01 (Eighth Edition, August 2001).

Questions relating to issue and publication fee payments should be directed to the Customer Service Center of the Office of Patent Publication at (703) 305-8283.

DETAILED ACTION***Allowable Subject Matter***

Claims 1-14 are allowed. The following is an examiner's statement of reasons for allowance: The prior art of record fails to teach or suggest a fuel cell unit comprising a humidifier that supplies humidified reactant gases to the fuel cell wherein the water carrying conduits that supply water to the humidifier includes a heating component arranged to heat at least a portion of the water carrying conduits. Furthermore, the prior art of record fails to teach or suggest a fuel cell unit comprising a first conduit for supplying air to a cathode, a humidifier and a second conduit for providing water to the humidifier wherein the second conduit possesses a conduit section having a heating component for heating the water.

The invention is deemed to be an unobvious modification to the inventions patented in publications: US '052 to Katoh et al., who teach a solid polymer electrolyte fuel cell system that has the capability of humidifying reactant gases by utilizing a water lubricated type compressor. Katoh et al. fail to teach or suggest, however, a fuel cell unit comprising a humidifier that supplies humidified reactant gases to the fuel cell wherein the water carrying conduits that supply water to the humidifier includes a heating component arranged to heat at least a portion of the water carrying conduits; US '976 to Murphy et al., who teach a gas humidifier for humidifying reactant gases that are supplied to an electrochemical device wherein the humidifier is wrapped with a heating element and covered with insulation. Murphy et al. fail to teach or suggest, however, a fuel cell unit comprising a humidifier that supplies humidified reactant gases to the fuel cell wherein the water carrying conduits that supply water to the humidifier includes a

heating component arranged to heat at least a portion of the water carrying conduits; US '915 to Ban et al., who teach a fuel cell system having water separation means wherein the separated water is used for humidification of the reactant gases. Ban et al. fail to teach or suggest, however, a fuel cell unit comprising a humidifier that supplies humidified reactant gases to the fuel cell wherein the water carrying conduits that supply water to the humidifier includes a heating component arranged to heat at least a portion of the water carrying conduits.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
